# EVERY LITTLE DETAIL LIVES

**IT HAS TAKEN A LONG TIME  
TO DEVELOP SOMETHING NEW  
THAT IS BOTH TIMELESS AND  
DURABLE**

*The artist was "indeed the son of his time", Friedrich Schiller noted in the Letters on the Aesthetic Education of Man (1795), but described it as "bad for him if he is at the same time their pupil or even their favourite". In that case he would get caught up in all the one-sidedness and shortcomings of the respective present.*

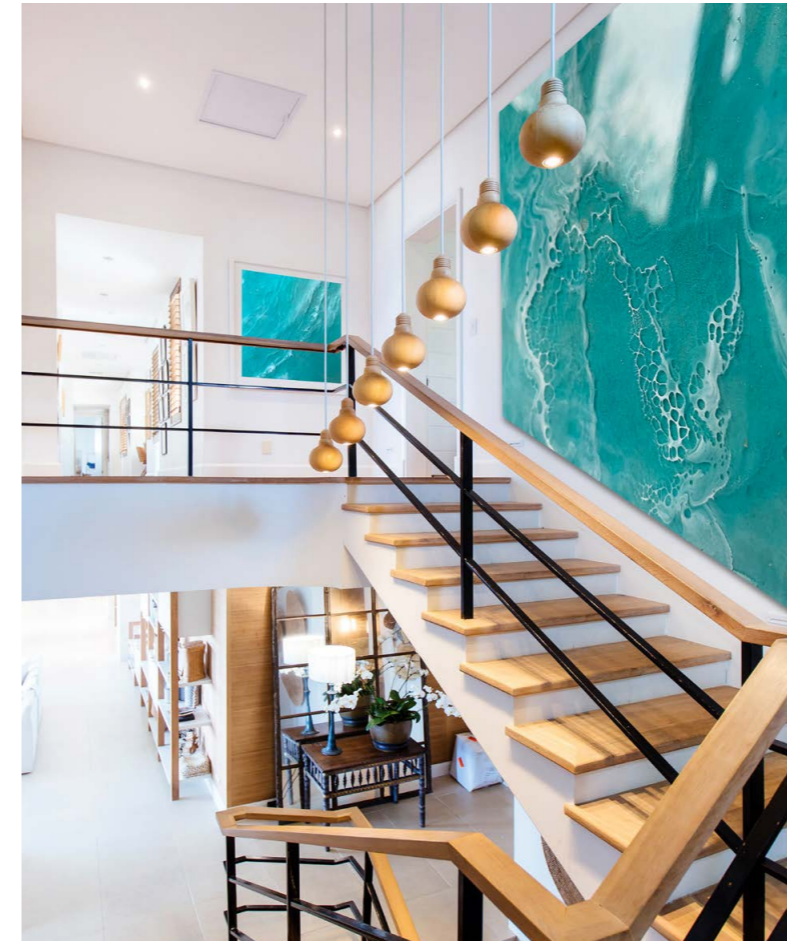

I used to think it is not an advantage to be in love with too much detail but that's exactly what art is all about.

Every little detail even if it is hidden can bring a picture to life.

## DECEMBER 2019

**HOW DO YOU  
DESCRIBE  
ART?**

**THIS ART CAN BE INTEGRATED EVERYWHERE.  
RELYING ON TIMES OF THE DAY THE INCIDENCE OF LIGHT MAKES THE COLOURS  
APPEAR DIFFERENTLY.**

# CROWN YOUR BATH

Would you ever want to get out of the bathtub again?

Relax with a glass of champagne, jazz music in the background and enjoy a warm bath while dreaming of the sea the sound of waves and feel the breeze of the wind.

## A FEEL-GOOD OASIS AT HOME

It is always amazing how versatile a picture can be used. Who would have thought that a bathroom could look like a holiday?

// OF COURSE IN DIFFERENT COLOURS AVAILABLE.

MADE TO MEASURE

## I HAVE LISTED THE MOST FREQUENT QUESTIONS OF MY CUSTOMERS.

**Can it be made as a kitchen countertop? Or kitchen island?**

In principle everything can be realized. It only takes time and the right elaboration material for you.

**Is it heatproof?**

Epoxy resins temperature resistant up to 250°C. DELO Industrial Adhesives presents

new one-component epoxy resins based on anhydride, which can be used in a temperature range from -65 °C to +250 °C. They are especially suitable for bonding and potting sensors and semiconductors.

**How thick is it?**

From 0,5mm up X in height. The resin can be cast in several layers. I recommend a maximum height of 1,5 - 2cm. For paintings I prefer between 0,4 - 0,7mm.

**ALSO SUITABLE FOR KITCHEN**

# SIMPLY TO INSPIRE

## EXPLORE THE DIVERSITY OF ART

And there is so much more that can be implemented.

There are no limits to the imagination. It is always a pleasure for me to transform the ideas of my customers.

Together we develop a concept for the implementation.

THESE ARE JUST A FEW EXAMPLES

# 10. ARRANGE FOOD ON ART

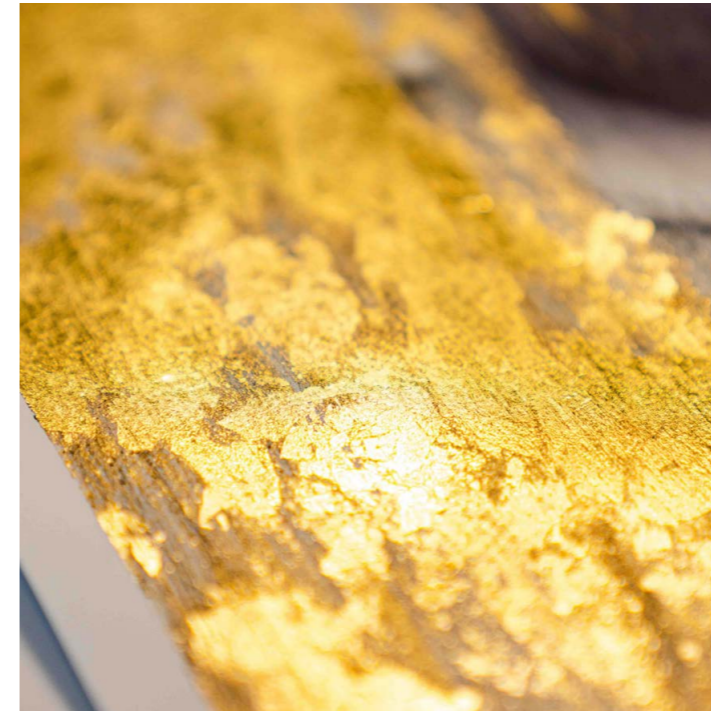

Enjoy your meal directly on the art and discover during the meal the patina of the gold.

## ISN'T IT GREAT?

As I mentioned several times, I am open for new ideas.

These examples are a wonderful illustration of how versatile my art can be used. The surface of the table consists of 24 carat gold leaf. This was applied with a method developed by me in such a way that it results in a beautiful patina. For the finish, the tabletop was casted and refined with epoxy resin.

Of course the table can also be used for the office or living room etc.

All pieces are optionally also available as 12k or 24k real gold leaf!

## **ABOUT ME**

I am a modern minimalist artist who lives in Hamburg. Born and grown up in the Black Forest inspired by the nature around me. I started painting at an early age. I sell my artwork worldwide but mainly in Germany. My heart and soul is not only in art, but also in the search for the deeper meaning of how art inspires and changes.

In my paintings I process my longing for nature, the tranquility and the power that nature gives us. I let the energy flow and be guided by it.
